

KenBiS en Plusminus organizes: World Bipolar Day 2024

Every year KenBiS organises in collaboration with Plusminus, the association of and for people with bipolar disorder and their loved ones, an activity in the context of World Bipolar Day.

Together with Kenbis, Plusminus and Dynamo, GGZ inGeest will host a film screening event on Wednesday April 3rd.

The documentary 'Zlatan is crazy' wants to break the taboo on mental disorders, increase understanding and open the conversation. It brings a message of hope: also with a bipolar or mental disorder it is possible to regain control over one's own life.
